- Neal C. “The practice questions and exams. Very helpful! Also, the instructor knew which topics to ‘gloss over’ and which to concentrate on. This was very helpful from a time allocation perspective. Lastly, the flexibility of the program was crucial — being able to attend alternative classes ensured that one wasn’t ‘left behind’ if he/she missed a class.”
- Peter G. “The SharpNotes were invaluable. Also, the abundance of questions really helped me to prepare.”
- Virginia H. “(1) I work better with the gradual pace of the Sharp Courses versus the cram of the one week courses.
(2) Dr. Diamond was excellent — knew the material very well, has a wonderful dry sense of humor, low key approach. But he definitely cared that we studied hard and did well!
(3) The books help explain the concepts very well.”
- Jasmine Z. “The seminars broke down long complicated subjects into simple, smaller components that were much easier to understand and practice on. The sample exam questions reinforced answers to the Learning Outcome Statements.”
